Comments
(Set forth by above question #, if applicable.
Use "Additional Comments" Sheet, if needed)

File #:,	95-1027167			: .	
#1. The ex	xaminer chose to	perform solubility tests on t	he K fibers. Infrared an	alysis was ava	ailable at this time
and is a m	nuch more specif	ic analysis and allows for the	e determination of the p	olymer sub-cl	ass of a synthetic
fiber. Infr	rared analysis sho	ould have been performed or	beige and gray K and	Q fibers.	
#2. The re	esults are not ade	quately documented in the n	otes. The notes are not	dated and are	in pencil. The
technician	n did not initial t	ne notes. The spectra for the	beige known fiber is m	arked "K1" an	d should be
"K2". The	e hair was deeme	d unsuitable for comparison	with no documented re	ason or explai	nation.
